GLENN RIEDER, INC. OPENS DALLAS OFFICE

MILWAUKEE, Wis. (January 8, 2009) – Milwaukee, Wis., - based Glenn Rieder, Inc. (GRI) has opened a new office location in Dallas, Texas. A national architectural millwork specialty contractor most known for its work in high-end corporate and institutional facilities, casinos, restaurants and hotels, Glenn Rieder anticipates new business relationships will develop in the southern states, especially with the addition of Peter M. Sandoval. Sandoval, who brings over 30 years of sales experience in the millwork industry, will serve as the Vice President of Sales and the Director of the Dallas regional office.

“We are very pleased to have a seasoned veteran like Peter Sandoval leading our sales efforts in Texas and other southern states. His experience and long standing relationships will undoubtedly provide many new opportunities for Glenn Rieder,” said Mike Floyd, C.E.O.

Located at 1331 River Bend Drive; Suite 201; Dallas, Texas 75247, the Dallas office provides sales support for projects in the southern region of the United States. The Dallas office is GRI’s third location, with its corporate headquarters located in Milwaukee, Wis. and a regional facility in Las Vegas, Nev. Production will continue at the 100,000 square-foot facility in Milwaukee, where the company employs about 100 skilled cabinet makers, draftsmen and office personnel.

Since 1946, GRI has fabricated millwork and specialty items for corporate facilities, restaurants, hotels, casinos, institutional and government facilities and sports venues. In the

southern region of the U.S., GRI recently completed the new Hakkasan Restaurant and the lobby area at the Fontainebleau Resort Hotel in Miami Beach, Fla.

For more information about GRI and to view photos of previous projects, please visit www.glennrieder.com.

Glenn Rieder, Inc. manufactures and installs high-end commercial interiors throughout the United States and internationally. GRI is a Forest Stewardship Council (FSC) certified company (SW-COC-000969). It is certified through the SmartWood program of the Rainforest Alliance and conforms to the requirements of FSC Chain-of-Custody (COC). Chain-of-Custody (COC) is the path taken by raw materials harvested from an FSC-certified source through processing, manufacturing, distribution, and printing until it is a final product ready for sale to the end consumer.
